

ASMAC

Join the American Society of Medical Association Counsel Today!

The American Society of Medical Association Counsel (ASMAC®) is the professional association of roughly 150 attorneys and physician advocates. Formed in 1974 to address emerging healthcare law issues collaboratively, ASMAC® works to bring out the very best education each year so members and their organizations can provide the highest standard on legal advocacy. Through its more than 40 member organizations, ASMAC® members help advance the healthcare industry through legal education, collaboration, and leadership development.

Why Become an ASMAC Member?

Peer Networking & Collaboration

- Join a national network of healthcare attorneys and advocates.
- Share resources and expertise through our member community forum, roundtables, and workgroups.

Targeted Continuing Legal Education (CLE)

- Participate in high-quality, member-driven CLE programs focused on physician and medical association law.
- Access member-only recorded programs at your convenience.

Professional Growth & Leadership Opportunities

- Partake in committees to foster skill-building and meaningful impact within and beyond ASMAC.
- Participate in strategic initiatives to enhance your influence in the healthcare law space.

Year-Round Events

- Stay connected and informed through our year-round events designed to keep you at the forefront of the industry.
- Discounted registration to our Spring DC Summit, Annual Meeting, Fall CLE Conference, and Live Webinars.

What Our ASMAC Members Say:

"ASMAC has no rivals for collegiality, the establishment of lasting professional relationships, and the sharing of knowledge and information among its members. It is the most valuable and invaluable professional association membership available in this field of law."

— Richard H. Levenstein, JD, Nason Yeager PA

"ASMAC builds a sense of community between and among lawyers who share the same dedication to the mission of organized medicine and the representation of physicians. I've always felt it was an honor to help the physician helpers."

— Kelly Walla, JD, Texas Medical Association
